

Gentlemen,

We are writing to urge you not to change the regulations presently in place regarding broadcast ownership. This country has already suffered with the consolidation in the various media outlets. As such, many divergent ideas or opinions do not receive the coverage they deserve. These regulations are fundamental to this countries very democracy. Consumers (citizens) in all markets must be allowed a variety of divergent news and media outlets. If these changes occur, sadly it will be another blow to this nations democracy. Please, we urge you not to liberalize the broadcast ownership regulations currently in place.
